

MEET OAKLAND SON (VON)

**Von was whelped on January 14, 2007.
He ran his entire racing career (81 races) at the Tri-State Track
in West Virginia.**

**During training at the end of December, Von tore some ligaments
in his right rear leg, and his racing days came to an end. He has
had two orthopedic surgeries – the first one on Dec 23, 2009 and
the second one on January 12, 2010. Von is presently
recuperating at the home of Ray and Belinda Cunningham. He has
excellent house manners and gets along well with all of the other
dogs in the house.**

**Von will be available for adoption through Monica's Heart once
his leg heals – most likely by the end of February. He is a tall
male who raced at 83 pounds. Belinda says he still needs to put
some weight on, but at the rate he's eating, that shouldn't be a
problem. She describes him as a "wonderful boy".**

**If you are interested in meeting Von and possibly adopting him
once his leg has healed, let us know.**
